JORDI CASAS - Backend Developer | Java & Spring Boot

Barcelona, Spain | +34 615 227 941 | jordicasas87@gmail.com|
linkedin.com/in/jordi-casas-g | Portfolio: https://jordicasasdev.onrender.com

Backend Developer with hands-on experience developing **Java and Spring Boot** backend applications and **REST APIs**. My development practices include writing clean, maintainable code and collaborating in Agile/Scrum environments.

Bringing over 7 years of experience in **international trade, sales team coordination, and key account management**, alongside problem-solving, workflow management, and cross-functional collaboration.

Languages and Databases: Java 21, SQL, Python, C# (fundamentals). MySQL, MongoDB

Frameworks & Backend: Spring Boot, Spring WebFlux, Spring AI, Spring Data (JPA, R2DBC, Reactive MongoDB), REST APIs, DTOs, Spring Security, JWT.

Testing: JUnit 5, Mockito, AssertJ, Unit Testing, Test-Driven Development (TDD)

Architecture: Object-Oriented Programming (OOP), SOLID. Hexagonal Architecture and Microservices (fundamentals).
DevOps & Tools: Git, GitHub, Maven, Gradle, Docker, Docker Compose, Swagger/OpenAPI, Postman, SonarCloud

PROFESSIONAL EXPERIENCE

Back-End Developer Intern – IT Academy, Barcelona Activa (Late 2025–Present)

Developed backend applications and REST APIs using Java and Spring Boot in collaborative projects.
- Contributed to a microservices-based backend.
- Helped implement a Global Exception Handler in a user module.
- Also collaborated on building the initial structure of an MVP using Hexagonal Architecture.
- Worked with Git/GitHub workflows, pull requests, code reviews and issue tracking.

Sales & Project Coordinator – GEA, Barcelona (2019–2024)

Coordinated international projects with suppliers across Europe, Africa, and South America. Led commercial initiatives while collaborating with cross-functional teams. Managed operational workflows, planning, and client relationships.

PROJECTS -> github.com/JordiCasas87

KakeBot
Personal finance platform that combines a web application and a **Telegram bot** to simplify expense tracking and budgeting. Built with Spring Boot, React, and MySQL.

RetroBazar
Retro gaming catalogue built with Spring Boot, Angular and MySQL using **Hexagonal Architecture**. Includes product administration, **Spring Security and JWT**, Cloudinary image management, and a **Spring AI/Gemini** assistant that analyses product images and proposes editable titles, descriptions and indicative prices.

Blackjack REST API
RESTful backend that manages Blackjack games, players, and game logic through a **reactive API**. Built with **Spring WebFlux**, MySQL, MongoDB, JUnit, and Swagger/OpenAPI.

ACADEMIC BACKGROUND

University Certificate in Back-End Java Development
IT Academy – Barcelona Activa, in partnership with Universitat Politècnica de Catalunya (UPC) (2025–2026)

42 Barcelona – Piscine
Intensive peer-to-peer programming program focused on C, Unix, algorithms, and problem-solving. (2026)

Additional Training: AWS Cloud Computing — introductory course completed · Microsoft Azure microcredentials — in progress.
