

JORDI CASAS - Back-End Developer | Java & Spring Boot

Barcelona, Spain | +34 615 227 941 | jordicasas87@gmail.com

| github.com/JordiCasas87 | [linkedin.com/in/jordi-casas-g](https://www.linkedin.com/in/jordi-casas-g) | Portfolio: <https://jordicasasdev.onrender.com>

Junior Back-End Developer with hands-on experience developing **Java and Spring Boot** backend applications and **REST APIs**. Passionate about clean, maintainable code, continuous learning, and collaborating in Agile/Scrum environments.

Bringing over 7 years of experience in international **project coordination**, problem-solving, workflow management, cross-functional collaboration, and client communication—transferable skills that contribute to delivering reliable, high-quality software.

Languages

Java 21, SQL
Python, C# (fundamentals)

Databases

MySQL, PostgreSQL, MongoDB

Testing

JUnit 5, Mockito, AssertJ, Unit
Testing, Test-Driven Development
(TDD)

Frameworks & Backend

Spring Boot 3, Spring WebFlux, Spring
AI,
Spring Data (JPA, R2DBC, Reactive
MongoDB),
REST APIs, DTO Architecture

Architecture

Object-Oriented Programming (OOP),
Hexagonal Architecture,
Domain-Driven Design (DDD),
Microservices

DevOps & Tools

Git, GitHub, GitHub Actions, Maven,
Gradle, Docker, Docker Compose,
Swagger/OpenAPI, Postman,
SonarCloud, IntelliJ IDEA, Eclipse. VS
Code

PROFESSIONAL EXPERIENCE

Back-End Developer Intern – IT Academy, Barcelona Activa (Late 2025–2026)

Developed backend applications and REST APIs as part of collaborative projects using Java and Spring Boot. Contributed to a collaborative backend project based on microservices, working with Git/GitHub workflows, Pull Requests, Code Reviews and issue tracking. Used SonarCloud and automated quality checks to monitor code quality and test coverage.

Sales & Project Coordinator – GEA, Barcelona (2019–2024)

Coordinated international projects with suppliers across Europe, Africa, and South America. Led commercial initiatives while collaborating with cross-functional teams. Managed operational workflows, planning, and client relationships.

PROJECTS

TakeBot ([link in repo](#))

Personal finance platform that combines a web application and a **Telegram bot** to simplify expense tracking and budgeting. Built with Spring Boot, React, and MySQL.

RetroBazar ([link in repo](#))

Event sales and stock management platform built with Spring Boot and **Hexagonal Architecture**. Integrates **Spring AI** for AI-assisted product creation, web/database search, pricing suggestions and image analysis.

Blackjack REST API ([link in repo](#))

RESTful backend that manages Blackjack games, players, and game logic through a **reactive API**. Built with **Spring WebFlux**, MySQL, MongoDB, JUnit, and Swagger/OpenAPI.

ACADEMIC BACKGROUND

University Certificate in Back-End Java Development

IT Academy – Barcelona Activa, in partnership with Universitat Politècnica de Catalunya (UPC) (2025–2026)

42 Barcelona – Piscine

Intensive peer-to-peer programming program focused on C, Unix, algorithms, and problem-solving. (2026)
